

# P165: Introduction to Particle Physics

Prof. Flip Tanedo ([flip.tanedo@ucr.edu](mailto:flip.tanedo@ucr.edu))

*Department of Physics & Astronomy, University of California, Riverside, CA 92521*

## Abstract

These are course notes for Physics 165.

**These notes are in progress.** Last update: January 8, 2018

## Contents

### 1 Particle Botany

1

## 1 Particle Botany

*If I could remember the names of these particles, I would have been a botanist.*

– Enrico Fermi (via Leon Lederman<sup>1</sup>)

## Acknowledgements

P.T. thanks *your name here* for useful comments and discussions. P.T. thanks the Aspen Center for Physics (NSF grant #1066293) for its hospitality during a period where part of this work was completed.
